ADORA

AUNIX DESIGN CONCEPT

REVOLUTIONIZE CONVENTIONAL PRACTICES

In relation to people and practices in the industry we serve and upgrade practice to allow people to grow

DELIVER REVOLUTIONARY REMARKABLE PIECES

In relation to introducing products in the market and make extra-ordinary products easily accessible and adoptable

CENTRE FOR GREEN INNOVATION

In relation to our commitment for the environment and advance products that reduces carbon footprint

DESIGNS AND CRAFT

Remarkable pieces for the hospitality industry

TRANSFORMABLE

Reusable and multi-functional

**“HARMONIOUS INTEGRATION OF BEAUTY AND MULTI-USE
PIECES INTO AN EXISTING ARCHITECTURE.”**

OUR OTHER LINES FOR HOSPITALITY

MEETING TABLES

*Sleek and elegant
looking, these
meeting tables are
made to be seen.*

MEETING TABLES

LOU

MEETING TABLE

Feel assured you are ready to take on any types of meetings and conferences from an easy-going discussion to a formal and dignified occasion with a table that can transform.

LOU TYPE 1

LOU TYPE 2

DETACHABLE MODESTY PANEL

- Modesty panel is detachable to ensure proper coverage and prevent damage
- Modesty panel length / height is about 14"-15" to ensure optimum protection and allowing guests to feel comfortable
- Modesty panel covers length to length to provide complete coverage even when tables are joined together for optimal protection
- with Panel stabilizer to keep the modesty panel in place and avoid swinging or shaking from side to side

TABLE LEGS

- Made of HCLS (Hardened Carbon Lite Steel)
- Metal to Metal Contact
- Leg frames are fastened onto a metal plate and bolted on the undertable for added durability

TABLE TOP

- A-Grade quality Solid Plywood Core
- Added metal understructure
- A wide variety of laminate colours

DIMENSIONS

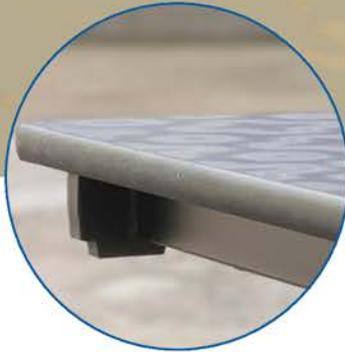

Standard Table Height :
760mm

Model Variation
Q : 450mm (W)
in 3 length sizes of 1200,
1500, 1800mm

R : 760mm (W)
in 3 length sizes of 1200,
1500, 1800mm

TABLE EDGE

- Reinforced vinyl edge finishing for added durability against impact

STORAGE

- The table legs is folded into the under rail of the table top and then stacked on a rectangle table trolley to minimize storage and have a better transport system to prevent knocks against fixtures in the ballroom / meeting room
- Modesty Panels have a separate trolley to ensure they are properly stored and prevent hitting against each other.

LOCKING MECHANISM

- Using a 'lift-n-fold' metal locking mechanism that ensures the stability of the table and ensures long lasting

LEG GLIDES

- Legs are fitted with adjustable glides to level off uneven surface

TABLE TOP

- A-Grade quality Solid Plywood Core is the choice for sturdiness. Paired with high pressured laminated top finishing it is able to withstand water spillage as compared to honeycomb core or MDF core
- Horizontal metal bar on the understructure for better structural integrity
- A wide variety of laminate colours

SUE

MEETING TABLE

Modesty aside, it is attached and comes in full length cover of the seating panel. The fixed modesty panel helps add strength and durability to the whole table structure.

LOCKING MECHANISM

- Firmly secures table legs in position with grip lock mechanism

LEG GLIDES

- Legs are fitted with adjustable glides to level off uneven surface

TABLE EDGE

- Reinforced vinyl edge finishing

STORAGE

- Clip it and keep it
- Table legs are foldable
- Modesty panel folds along with the table legs allowing for little storage space

DIMENSIONS

Standard Table Height : 760mm

Model Variation
Q : 450mm (W)
in 3 length sizes of 1200,
1500, 1800mm

R : 760mm (W)
in 3 length sizes of 1200,
1500, 1800mm

TABLE LEGS

- Made of HCLS (Hardened Carbon Lite Steel)
- Metal to Metal Contact
- Leg frames are fastened onto a metal plate and bolted on the undertable for added durability

DETACHABLE MODESTY PANEL

- Modesty panel is attached and fixed and covers full length of seating panel
- Modesty panel length / height is about 14"-15" to ensure optimum protection and allowing guests to feel comfortable
- Modesty panel covers length to length to provide complete coverage even when tables are joined together for optimal protection

VERDURE

MEETING TABLE

TABLE TOP

- A-Grade quality Solid Plywood Core is the choice for sturdiness. Paired with high pressured laminated top finishing it is able to withstand water spillage as compared to honeycomb core or MDF core
- Added metal understructure to enhance durability and prevent sagging of the table top
- A wide variety of laminate colours

DETACHABLE MODESTY PANEL

- Modesty panel is attached and fixed and covers full length of seating panel
- Modesty panel folds halfway and flip up completely when tucked away
- Modesty panel length / height is about 14"-15" to ensure optimum protection and allowing guests to feel comfortable
- Modesty panel covers length to length to provide complete coverage even when tables are joined together for optimal protection

TABLE EDGE

- Reinforced vinyl edge finishing for added durability against impact
- Allows smooth connection between tables
- Can be repaired or replaced separately and not need to change the whole table

TABLE LEGS

- Table legs are made of (HCLS) hardened carbon lite steel which is more environmentally friendly and with quality polished chrome finishing.
- Table legs are secured to metal plate before being attached to table top to ensure metal to metal strong securement.
- Table leg options:
 - Flat Straight
 - Arched Straight
 - Angled

DIMENSIONS

Standard Table Height :
760mm

Model Variation
Q : 450mm (W)
in 3 length sizes of 1200,
1500, 1800mm

R : 760mm (W)
in 3 length sizes of 1200,
1500, 1800mm

VERDURE TYPE 2

VERDURE TYPE 1

LEG GLIDES

- Legs are fitted with adjustable glides to level off uneven surface

STORAGE

- Foldable legs for low storage requirement

BANQUET TABLES

BANQUET TABLES

ALLI

BANQUET TABLE

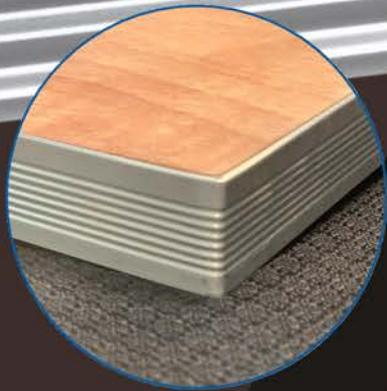

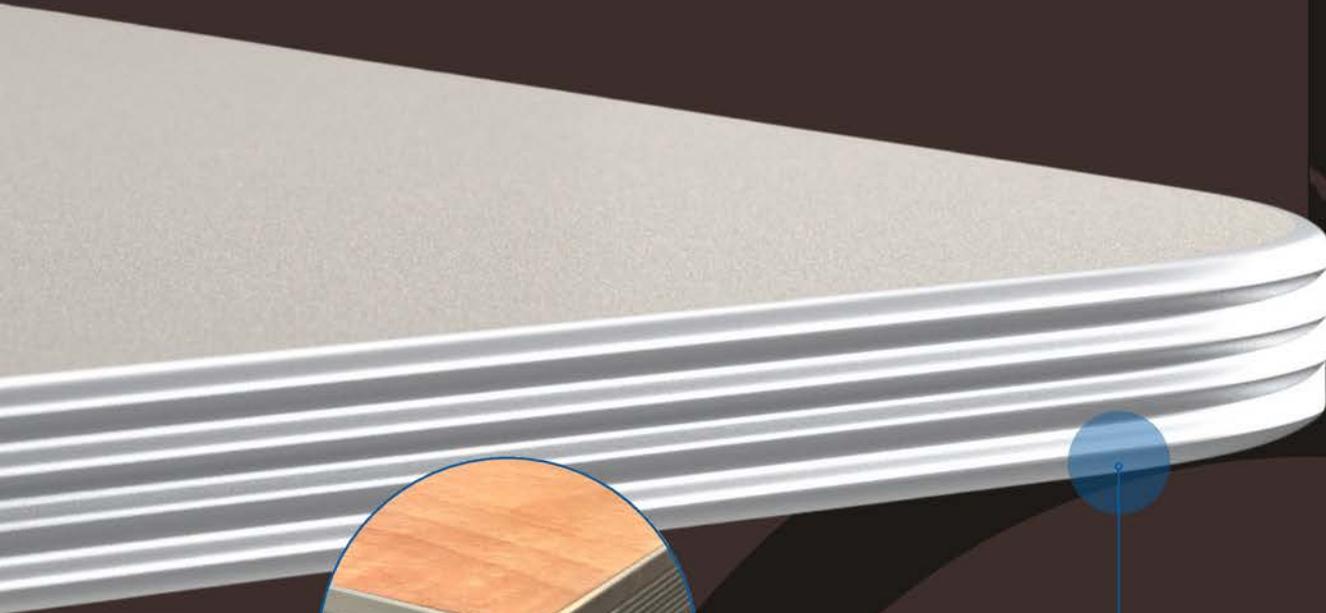

TABLE EDGE

- Toughened Aluminum edge finishing for reinforced durability
- Round:
 - C-Clamped into plywood core to prevent detachment of edge. Reinforced with industrial staples
- Rectangle:
 - Arrow shaped T-moulded Aluminum edge to prevent detachment of edge. Reinforced with industrial staples

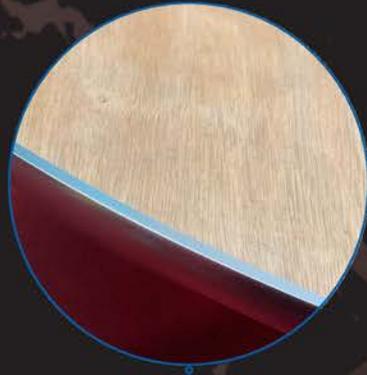

TABLE LEGS

- Table legs are made of oven-baked hardened carbon lite (HCL) steel which is more environmentally friendly
- Table legs are secured using E-nuts and insert to ensure stronger metal-to-metal securement instead of having screws direct into wood

TABLE TOP

- A-Grade quality Solid Plywood Core for strength and long lasting with high pressured laminated top finishing. Not as sensitive to water as compared to honeycomb core or MDF core
- Added metal understructure to provide strength and prevent sagging

LOCKING MECHANISM

- Using an over-centered double spring lock mechanism to ensure table legs are strong and stable while preventing accidental folding of legs. Comes with vinyl moulded catch lock for safety purpose when legs are folded

STORAGE

- Legs are folded to minimize storage and goes onto a round table trolley for easy transport and storage

ARYYA

BANQUET TABLE

Built with formidable strength required to meet everyday operation needs, while reducing personnel strain and injury with light-weight handling.

CORNER PROTECTORS

- Ensure strength and durability

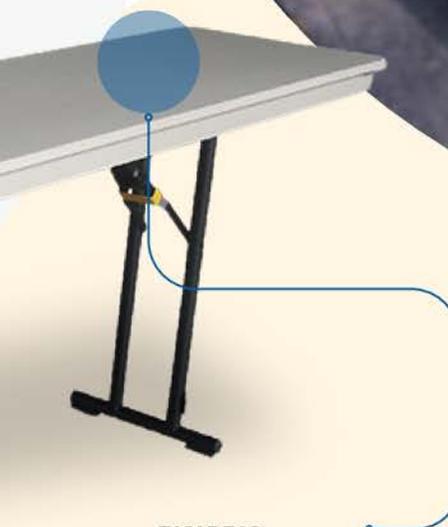

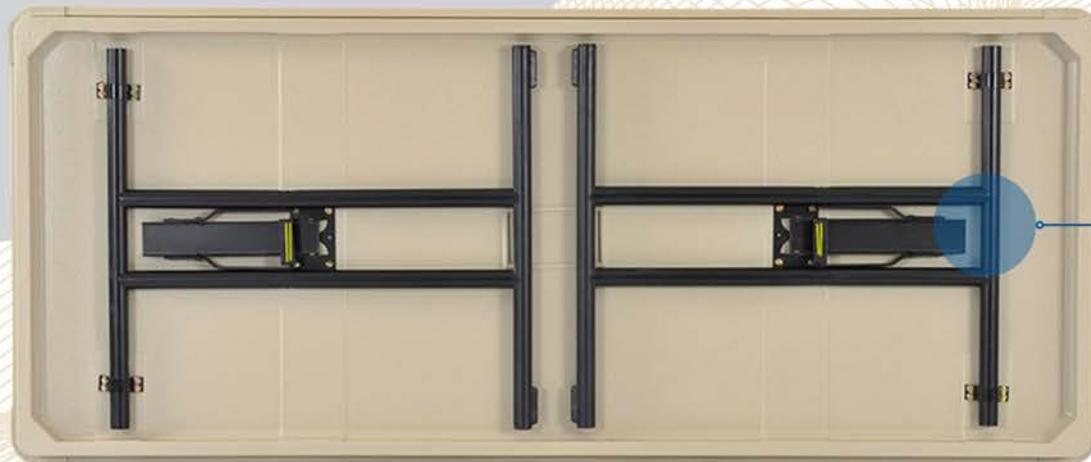

TABLE TOP

- ABS top shell honeycomb core construction with metal bars strategically placed to handle heavy load while keeping to light-weight operation
- High impact 100-percent Virgin ABS surface
- Extends durability
- Lightweight

LEG FRAME

- Quality steel frame
- Easy-to-pull leg attachment featuring positive gravity locking mechanism

VHIN

BANQUET TABLE

An original and basic banquet table, yet Aunix has given it an edge with its superior built, quality and finishing.

LOCKING MECHANISM

- Over-centred double spring loaded hinge to prevent unintentional
- folding of legs with moulded vinyl catch – for safety reasons
- Ensure secured fastening during usage
- Legs are kept folded during transportation

LEG FRAME

- Mild steel tubing measuring 30mm x 30mm
- Thickness of 1.2mm
- Firmly secured to table top with railings to take heavy load
- Prevent table top from sagging

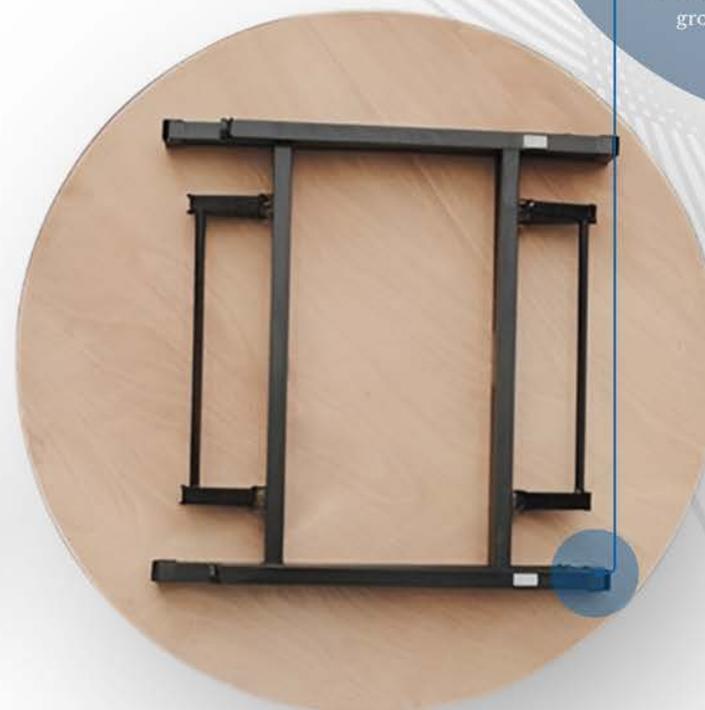

TABLE TOP

- Solid plywood core
- To sustain heavy usage in banquet industry
- Topped with synthetic leather with 4mm sponge – sponge available up to 1500mm (width / length)

NON-FALLOUT GLIDES

- Attached to leg frames even when tables are adjusted to maximum height
- Ensure stability even on unlevelled grounds

BANQUET CHAIRS

*Different styles from
timeless pieces to the
most expressive
selection of chairs.*

EMERALD

BANQUET CHAIR COLLECTION

Update your banquet settings and restaurants with contemporary design from the Emerald Collection.

Choose one-toned or striped fabrics for a current and elegant look, or play with floral and paisley prints for a cheerful feel.

Chairs are stackable in five for better storage. With aluminum legs, this collection is lighter to handle than usual upholstery, and also enable efficiency in transportation.

PORTABLE DANCE FLOORS

*Let your guests party
and dance the night
away. With these
versatile dance floors,
it's easy to personalize
its size according to
your venue's space.*

PORTABLE DANCE FLOORS

EQUINOX

OAKWOOD PARQUET PORTABLE DANCE FLOOR

TUCK AND TURN

- This rota-lock mechanism uses a hex key, rotated half clockwise to lock-in panels together

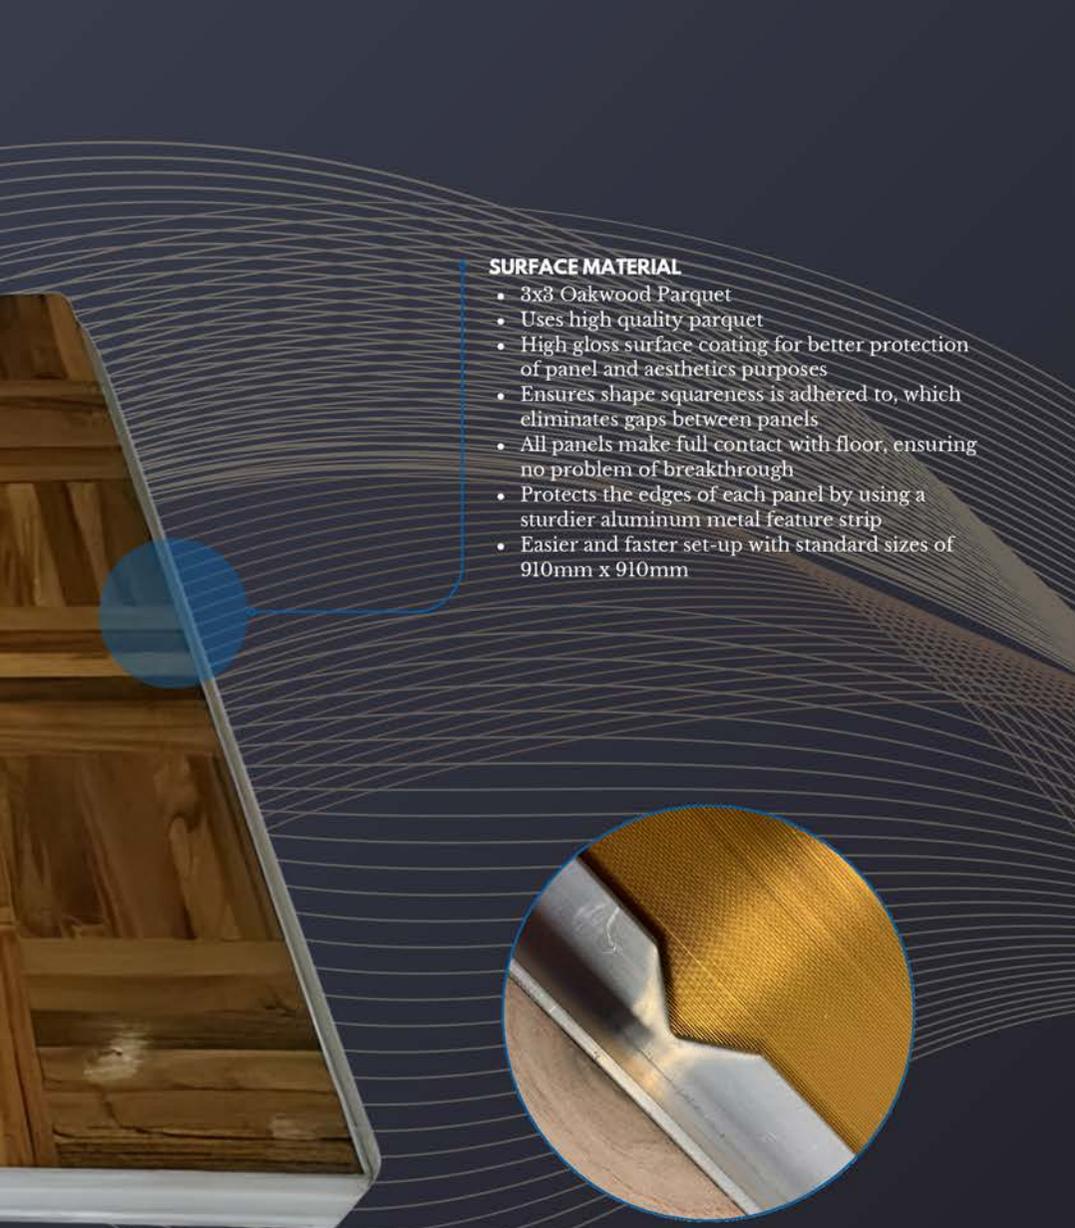

GEAR LOCK

- Gear-Lock uses reliable positive locking system
- Do not rely on magnets or gravity to secure panels together
- Allows automatic alignment of panels together for quicker and locked fit
- Only requires a half-turn allen wrench to lock & unlock panels, reducing time and labour for set-up panel

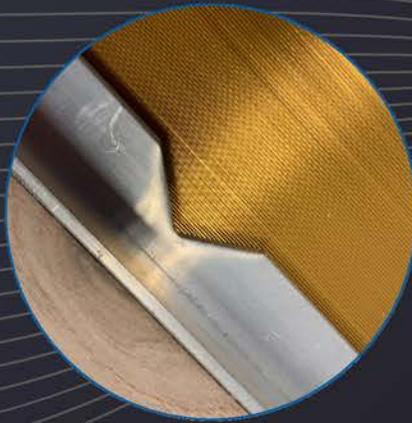

DANCE FLOOR TRIM

- Material : Aluminium
- Width of Trims : 127mm, providing approximately 11° gradient to every floor
- Finish : Gold / Silver anodized

SURFACE MATERIAL

- 3x3 Oakwood Parquet
- Uses high quality parquet
- High gloss surface coating for better protection of panel and aesthetics purposes
- Ensures shape squareness is adhered to, which eliminates gaps between panels
- All panels make full contact with floor, ensuring no problem of breakthrough
- Protects the edges of each panel by using a sturdier aluminum metal feature strip
- Easier and faster set-up with standard sizes of 910mm x 910mm

PATHFINDER

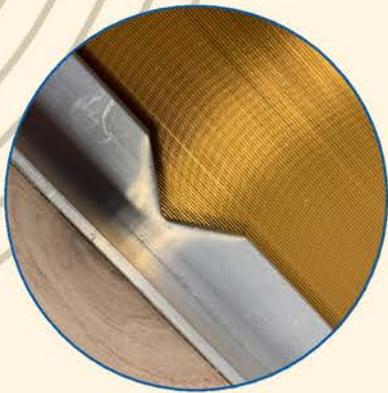

- Each dance panel has an alignment cache to secure and safeguard alignment in place

SURFACE MATERIAL

- 3x8 Fortified Wood
- High gloss surface coating for better protection of panel and aesthetics purposes
- Ensures shape squareness is adhered to, which eliminates gaps between panels
- All panels make full contact with floor, ensuring no problem of breakthrough
- Protects the edges of each panel by using a sturdier aluminum metal feature strip
- Easier and faster set-up with standard sizes of 910mm x 910mm

PATHFINDER

- Each dance panel has an alignment cache to secure and safeguard alignment in place

PEGASUS
